

TITLE:- MARKETING-CAMPAIGN-PERFORMANCE-ANALYSIS

1. PROJECT OVERVIEW

- This project analyzes marketing campaign performance to help businesses evaluate revenue, customer behavior, product performance, and campaign effectiveness. Interactive Power BI dashboards provide decision-makers with actionable insights for improving marketing strategies and maximizing return on investment (ROI).

2. BUSINESS OBJECTIVE

- Monitor overall marketing performance.
- Analyze campaign profitability.
- Understand customer segments.
- Evaluate product and channel performance.
- Support data-driven marketing decisions.
- Identify high-performing campaigns and business opportunities.

3. DATASET INFORMATION

Attribute	Value
Total Records	18,000
Total Columns	17
Source	Kaggle Marketing Dataset
Data Cleaning	Python
Data Validation	SQL
Visualization	Power BI

4. KPIS USED

1. Executive Dashboard

- Total Revenue
- Total Ad Spend
- Profit
- ROI %
- Total Campaigns

2. Customer Dashboard

- Average CLV
- Average Product Price
- Average Discount
- Average CTR

3. Performance Dashboard

- Average Revenue
- Average Campaign Duration
- Average ROI
- Average Ad Spend

4. Product Dashboard

- Average Price
- Average Discount
- Average Market Reach
- Average Impressions

5. DASHBOARD PAGES

Dashboard	Purpose
Executive Summary	Business overview
Customer Insights	Customer analysis
Performance Analysis	Campaign performance
Product & Channel Performance	Product and channel insights
Campaign Details	Drill-through analysis
Channel Tooltip	Custom tooltip

6. TOOLS & TECHNOLOGIES

Excel

Python (Data Cleaning)

MySQL (SQL Analysis)

Power BI

Business Insights

7. BUSINESS VALUE

EXECUTIVE DASHBOARD

Insight 1: - Revenue distribution varies across regions.

Recommendation: - Investigate the strategies used in high-performing regions and replicate successful campaigns in lower-performing regions.

Insight 2: - Some marketing channels contribute more revenue than others.

Recommendation:

Allocate a larger share of the marketing budget to consistently high-performing channels while reviewing the effectiveness of lower-performing ones.

Insight 3: - Revenue trends change over time.

Recommendation: - Identify seasonal peaks and schedule major marketing campaigns during high-demand periods.

CUSTOMER INSIGHTS DASHBOARD

Insight 4: - Customer segments differ in Customer Lifetime Value (CLV).

Recommendation: - Prioritize customer retention and personalized marketing for high-CLV segments to maximize long-term profitability.

Insight 5: - Product category performance is not uniform.

Recommendation: - Increase marketing investment in high-performing categories and reassess pricing or promotional strategies for weaker categories.

Insight 6: - Discount levels vary across products or campaigns.

Recommendation: - Evaluate whether higher discounts actually improve revenue before expanding discount-based promotions.

PERFORMANCE ANALYSIS DASHBOARD

Insight 7: -Campaigns differ in revenue generated relative to advertising spend.

Recommendation: - Analyze the characteristics of top-performing campaigns and use them as a benchmark for future marketing initiatives.

Insight 8: - Campaign duration varies.

Recommendation: -Study whether shorter or longer campaigns consistently deliver better outcomes and optimize campaign duration accordingly.

Insight 9: - Top-performing campaigns contribute a significant portion of overall revenue.

Recommendation: - Identify the factors behind these campaigns—such as channel, audience, or product—and incorporate those practices into future campaigns.

PRODUCT & CHANNEL PERFORMANCE DASHBOARD

Insight 10: - Sales performance differs across product categories.

Recommendation: - Maintain adequate inventory and marketing support for high-demand categories while reviewing underperforming products.

Insight 11: - Marketing channels achieve different levels of market reach.

Recommendation: - Balance investments between channels that provide broad awareness and those that deliver strong revenue or conversions.

Insight 12: - Impressions and market reach vary across channels.

Recommendation: - Use awareness-focused channels for brand visibility and evaluate whether increased reach translates into meaningful business results.

OVERALL BUSINESS RECOMMENDATIONS

- Focus marketing spend on consistently high-performing channels.
- Develop retention strategies for customers with high lifetime value.
- Optimize campaign duration based on performance analysis.
- Use regional performance data to guide market expansion.
- Continuously monitor KPIs such as Revenue, ROI, CLV, and Ad Spend through interactive dashboards.
- Regularly validate and clean incoming data to ensure reliable reporting and decision-making.
